

[My.com B.V.](#) is a subsidiary of [Mail.Ru Group Limited](#), the largest Internet company in Russian-speaking countries with an audience of 137.7 million users (comScore, April 2016, worldwide), that is publicly traded on the London Stock Exchange.

My.com brand's vision is to build an integrated communication and entertainment platform, dubbed 'communitainment,' beginning with a family of mobile apps and games, and expanding to PC games bringing immersive, massively multiplayer online experiences to the users.

## OUR PRODUCTS

[myMail](#) is a free mobile email client with an intuitive UI that lets users manage all email accounts including Gmail, Yahoo, Outlook.com, AOL and @my.com. Available for iOS and Android devices, myMail lets users customize and enable real-time push notifications even if email providers do not support them. The app brings a sleek and clear interface specifically designed for easy email management. myMail is the world's most downloaded alternative email app on iOS and Android.

[MAPS.ME](#) is a free map and navigation app for Android and iOS that works both online and offline. MAPS.ME uses open location data provided by OpenStreetMap (OSM), a crowd-sourced map service. The app features built-in map editor enabling users to make additions and edits to OSM. MAPS.ME offers routing for pedestrians, cyclists and cars. In 2014, MAPS.ME was acquired by Mail.Ru Group and became part of My.com brand. In 2015, the app went open source: its source code is available under the Apache 2.0 license, which means free usage, even for commercial purposes.

[myTarget](#) is the advertising platform that incorporates the mobile audiences from the largest Russian and CIS social networks and services, including VK, Odnoklassniki and Moi Mir (My World). Ad network includes several thousands of apps and third party developer mobile sites, allowing advertisers to extend their reach considerably. myTarget allows delivering advertising campaigns to more

than 250 target groups, including hyperlocal advertising, dynamic retargeting, income, interests and many other types of targeting.

## **PC GAMES**

[Armored Warfare](#) is a free-to-play MMO tactical military game developed by Obsidian Entertainment and published by My.com. Armored Warfare offers challenging PVP battles and cooperative PVE missions, modern armored vehicles and maps from unique environments from around the world.

[Skyforge](#) is a free-to-play AAA Sci-Fi MMORPG, featuring dynamic combat set in a universe where gods and heroes use futuristic technologies to protect their planet from vicious creatures and space invasions. The strongest of the heroes will ascend from young immortals to powerful gods and heads of Pantheons.

[Revelation Online](#) is a breathtaking MMO experience in which players will discover the lands of Nuanor. Tremendously popular among MMO players, Revelation Online is developed by NetEase, the second largest gaming company in China and official operator of Blizzard Entertainment's games in the region. My.com is the global publisher of the game.

[Allods Online](#) is a free-to-play 3D fantasy MMORPG published by Mail.Ru Group globally, with the international version operated by My.com.

## **MOBILE GAMES**

[Juggernaut Wars](#) is a fantasy action RPG available on iOS and Android. In Juggernaut Wars, players assemble a team of memorable heroes and return to explore the fascinating world of Haradan — a world familiar to fans of its predecessor Juggernaut: Revenge of Sovering, the multi-million download RPG hit from 2012.

[Might and Glory](#) is an online strategy game for everyone who loves classic fantasy and epic battles, available on iOS and Android.

[Evolution: Battle for Utopia](#) is a multi-genre blockbuster combining unprecedented Action, Strategy and Advanced Graphics into one RPG game. Listed among Best of 2014 in Google Play and Apple App Store annual ratings.

[Heroes of Utopia](#) is a next generation game, designed in the style of a revolutionary new genre, the RPG-clicker. Compatible with Apple Watch. Introduces deep social mechanics.

[Jungle Heat](#) is a free cross-platform war game, which can be played on any

device or social network. This strategy game is packed with beautiful graphics, weapons, troops and buildings to satisfy the most committed armchair strategist.

[Iron Desert](#) is a free cross-platform war game that can be played on any device. The tactical game featuring exciting PvE campaign, dynamic development of base and thousands of opponents worldwide, united in hot battles for the treasure of desert.

[Poker Arena](#) is a free Texas Hold'Em, one of the most popular poker variations, available for Android and iOS devices.

[Lucky Fields](#) is a simulation game allowing a gamer to build the dream farm and expand it to omnipotent empire together with friends.

[Jungle Clash](#) is an online mobile strategy game with dynamic real-time PvP battles and captivating MOBA elements. Players collect a unique deck of their favorite fighters, armored vehicles, and defenses from the mobile blockbuster Jungle Heat. Available on iOS and Android.

## OUR HERITAGE

**Mail.Ru Group Limited** (LSE:MAIL, listed since November 5, 2010) is a leading Internet company in Europe and is the 1st largest Internet business globally, based on the average minutes per visitor (comScore, top 100 properties, April 2016, worldwide).

In line with the communitainment (communication plus entertainment) strategy, the company is developing an integrated communications and entertainment platform. Mail.Ru Group owns Russia's leading email service and one of Russia's largest internet portals, Mail.Ru. The company operates three of the major Russian language social networks, VKontakte (VK), Odnoklassniki (OK) and Moi Mir (My World), and Russia's largest online games (including such gaming titles as Warface, Armored Warfare, Skyforge and Perfect World). Its portfolio includes ICQ and Agent Mail.Ru — two instant messaging services popular in Russia and CIS.
